DECORATIONS.

rass and Wood Ornaments For Parlor and Dining Room.

Openwork brass lamps are most fashonable at present.

Brass claw feet are most ornamental pedestals for mahogany tripods and tables.

Olive wood is fashionable just at present in the manufacture of all articles of the toilet.

Brass bedsteads are even more generally used, for their manifold attractions are being appreciated by those who own them over all others.

New artistic designs for embroidery m Kensington are on the background le Tava cotton, which may be found in colors at the designers of embroidery

·herns. ive o'clock tea tables now form part the furniture of every well-appointed r, and there never have been so attractive designs imported before

ison. There are many beautiful designs in mahogany furniture of scarcely less beauty than those of colonial days; the only difference being that less glue is used in their construction in the present day.—N. Y. Graphic.

The Barley Crop of Iceland.

is generally supposed that the north arctic zone is extending, and proof is assumed in the increase of ice on the eastern shores of Greenland, and in the fact that barley, which was successfully grown in Iceland from its first settlement in 870 down to the middle of the fifteenth century, is no longer cultivated there. The Icelandic Government have, however, lately attempted to grow barley in the island on a considerable scale, and the results were very favorable. Norwegian barley from Altenfjord, the extreme north of the barley-growing zone, was planted and fit for cutting in eighty-nine days. The decline in barley cuttivation in Iceland is really due to the fact that cattle breeding paid both. the fact that cattle-breeding paid better.—N. Y. Post.

A New King on the Throne!

"Malaria," as a "popular ailment," has given place to a new potentate.

If you have Rheumatism now, the medical wiseacres exclaim—"Uric Acid"!

If you have frequent headaches, they sagely remark—"Uric Acid"!

If you have softening of the brain, they insist that it is—"Uric Acid"!

If Sciatica or Neuralgia make life miserable, it is—"Uric Acid"!

If your skin breaks out in Boils and Pimples, it is—"Uric Acid"!

If you have Abscesses and piles, "Uric Acid"!

Acid" has set your blood on fire.

If you have dull, languid feelings, backache, kidney or bladder troubles, gout, gravel, poor blood; are ill at ease, threatened with paralysis or apoplexy, vertigo; are bilious, dropsical constipated or dyspeptic—"Uric Acid" is the key to the situation, the cause of all your difficulties!

We do not know as madam Malaria will take kindly to this Masculine Usurper, but he has evidently come to stay.

"Uric Acid,"—this Monster, is the product of the decomposition—death—constantly taking place within us, and unless he is every day routed from the system, though the kidneys, by means of some great blood specific like Warner's safe cure, which Senator B. K. Bruce says snatched him from its grasp, there is not the least doubt but that it will utterly ruin the strongest human constitution!

It is not a young fellow by any means. It has a long and well-known line of ancestors. It is undonbtedly the father of a very great family of diseases, and though it may be the fashion to ascribe progeny to it that are not directly its own, there can be little doubt that if it once gets thoroughly seated in the human system it rally used to its baleful influence. ailments now, per force of fashion, attributed to its baleful influence.

A BALLET-girl is somewhat of a philos-Oil City Derrick.

PERCHERON HORSES.

What the Commissioner of Agriculture Said of Percheron Horses.

Hon. George B. Loring, Commissioner of Agriculture of the United States, having promised to meet with the Percheron Horse-Breeders of America, at Chicago, Nov. 15, 1883, telegraphed as follows: "I regret exceedingly my inability to be with you. Am heartily in sympathy with your position. Physician positively forbids my leaving the house. My disappointment is greater than yours. The Percherons are recognized as a distinct breed in France, and are entitled to a Stud Book though breeds. this country as much as thoroughbreds, and as much as any breed of cattle to a herd book. Their introduction has greatly improved the farm and draft horses of this country, and will, un-doubtedly, improve the large carriage and omnibus horses. I think the pub-lication of a Stud Book in both countries will ultimately, in this case as in all others, add greatly to the future value of the breed." It is gratifying to know similar sentiments are entertained by some of the prominent importers, notably among them, Mr. M. W. Dunham, of Wayne, Illinois, who, buying none but pedigreed stock, has done more toward the introduction of the finest types of the breed than, we might almost of the breed than, we might almost say, all other men, having imported nearly 2,000 since 1872.

"The canny Scot" ought to go into the fruit-canning business.—Washington Hatchet.

DR. JOHN BULL'S

FEVER and ACUE

Or CHILLS and FEVER,

AND ALL MALARIAL DISEASES.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SAFE, CERTAIN, SPEEDY and PERMANENT cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonio, a single dose of KENT'S VEGETABLE FAMILY PILLS will be sufficient. Use no other. AND ALL MALARIAL DISEASES.

Men Think

they know all about Mustang Liniment. Few do. Not to know is not to have.

I am a native of England, and while I was in that country I contracted a terrible blood polson, and for two years was under treatment as an out-door patient at Nottingham Hospital, England, but was not cured. I suffered the most agonizing pains in my bones, and was covered with sores all over my body and limbs. Finally I completely lost all hope in that country, and salled for America, and was treated at Roosevelt in this city, as well as by a prominent physician in New York having no connection with the hospitals.

I saw the advertisement of Swift's Specific, and I determined to give it a trial. I took six bottles and I can say with great joy that they have cured me entirely. I am as sound and well as I ever was in my life.
